A warm welcome to our

Recognising and pursuing the interests and needs of each child are two important building blocks of our pedagogical work. We organise our work according to the situation-oriented approach. In order for your children to experience our day care centre as a place of security, the creation of an environment suitable for children as well as loving and familiar interaction is especially important to us. Together with your children, we experience and discover the world. In doing so, we make it possible for them to try out their abilities in a variety of ways.

In addition to the holistic support of your children, we place our emphasis on:

- Movement
- Nutrition
- Nature

Daily Routine

7:30 – 8:30 Uhr
Bringing and Arrival time

8:30 – 9:00 Uhr
